Chief Strategy Officer  
and Chief Medical  
Officer, Medically  
Home

“ We believe our platform is helping to set a new, enduring standard for patient care.

With over 40,000 patients successfully cared for at home, we're eager to help define the next phase of scalable, sustainable care models that will continue to decentralize healthcare for the benefit of patients and health systems alike. That's why Medically Home is excited to participate in the Connected Health Collaborative Community.”
