DO, MPH

*Chief Medical Officer,
Chief Strategy Officer*
Medically Home

The DiMe Blueprint for Scaling Hospital-at-Home is a terrific contribution to the broader hospital-at-home movement. As an organization dedicated to enabling safe, effective, and scalable care in the home, we see these resources—especially the patient journey map and the technical and operational considerations—as vital tools for the entire ecosystem. They provide clarity, structure, and shared language that help accelerate adoption and innovation across diverse care settings. We were honored to collaborate on this effort and are excited to see the impact it will have on the future of care delivery.

Advancing a Sustainable
Hospital-at-Home
Ecosystem at Scale

Connected Health
